GCCR-DEI Follow-Up Survey

We are writing to you because you agreed to receive follow-up communication from the GCCR DEI Committee. The reason we are conducting this follow-up survey is that our initial analysis of the DEI Survey and Slack API data indicate that only 10% of the GCCR membership is actively participating in the consortium. Since we are not able to assess DEI in a diverse, equitable, and inclusive sample, we want to understand how top users are engaging with the membership outside their pre-existing networks.

Your responses to this survey will remain anonymous because we are neither collecting personal identifying information nor asking you to volunteer your email address for this survey. If you find you are uncomfortable with any question, you may skip that question. If you are uncomfortable with all questions, you can opt out by not submitting the survey. Once you reach the end and click the submit button, your responses will be submitted.

The survey does not impose any known risks or benefits to participants. The survey should take no more than 20 minutes to complete and most participants will finish the survey in 10 minutes. If you have any questions before taking the survey or after completing and submitting it, you can contact the Chair of the DEI Committee, Professor Kara C. Hoover (kchoover@alaska.edu). DEI Committee members, in alphabetical order, are: Marius Baguma, Paloma Rohlfs Dominguez, Paule Joseph, Renée Hartig, Ritesh Kumar, and Sachiko Koyama.

The UAF Institutional Review Board (IRB) is a group that reviews research projects involving people. This review is done to protect the rights and welfare of the people involved in the research. If you have questions or concerns about your rights as a research participant or in the event of a research-related harm, you can contact the UAF Office of Research Integrity at 474-7800 (Fairbanks area) or 1-866-876-7800 (toll-free outside the Fairbanks area) or uaf-irb@alaska.edu.

By submitting, you consent to sharing your responses with the GCCR DEI Committee. You also consent that summaries of the responses will be shared in a report to the Leadership Team and a paper prepared by the GCCR DEI Committee on DEI challenges for global consortia.

Skip to section 1 (Definitions)Skip to section 2 (Definitions)

Definitions

Collaboration: mutual communication/exchange of information specifically focused on a shared output (paper, grant proposal, GCCR New Data Study, GCCR Existing Data Study, non-GCCR study developed through the GCCR Platform) or actively developing or designing a research design

Interaction: mutual communication/exchange of ideas and information with other researchers without a focus on a shared product. This could include a project page where the discussion has not advanced beyond a mutual interest in a topic but with no direction forward for a proposal or a study. This could include messaging about expertise, requesting input on a topic, chatting via an open discussion on any of the public pages. This would NOT include liking or reacting to posts.

Follow-up Survey Questions

The questions are all optional, but we would appreciate you answering as many as you feel comfortable so we can have a representative sample (of our subsample).

1. Please characterize your GCCR network. Check all that apply.

Check all that apply.

- [ ] I interact with the people I have worked with previously
- [ ] I collaborate with the people I have worked with previously
- [ ] I interact with new researchers that I was aware of previously
- [ ] I collaborate with new researchers that I was aware of previously
- [ ] I interact with new researchers that I was NOT aware of previously
- [ ] I collaborate with new researchers that I was NOT aware of previously
- [ ] Other: _____

2. Which statement best fits you?

Mark only one oval.

- ( ) I have an established research network and do not need to expand.
- ( ) I have an established research network and am willing to expand it.

3. Which statement best fits you?

Mark only one oval.

- ( ) I have an established research collaboration and do not need new ones.
- ( ) I have an established research collaboration but am willing to expand that collaboration or develop new ones.

4. What have you found to be the single best way to form or join a NEW collaboration on Slack via the GCCR?

Mark only one oval.

- ( ) Meeting on a project idea page
- ( ) Direct contact via messaging
- ( ) Contributing to Leadership Team papers
- ( ) GCCR approved EDS (existing data study) or NDS (new data study) projects solicit expertise via a project page
- ( ) GCCR approved EDS or NDS projects invite collaborators based on expertise

5. If you have expanded your network or collaboration to new researchers previously known to you but not collaborators, how have you interacted as a result of GCCR membership? Check all that apply.

Check all that apply.

- [ ] See them on Slack channels
- [ ] Direct interaction on non-project Slack channels or via message
- [ ] Direct interaction on Slack project pages
- [ ] Leadership led paper (for example, GCCR 0001, 0002, 0003, 0004)
- [ ] GCCR New Data Study
- [ ] GCCR Existing Data study
- [ ] New collaboration outside of GCCR

6. If you have expanded your network to new researchers NOT previously known to you, how have you interacted as a result of GCCR membership?

Check all that apply.

- [ ] See them on Slack channels
- [ ] Direct interaction on non-project Slack channels or via message
- [ ] Direct interaction on Slack project pages
- [ ] Leadership led paper (for example, GCCR 0001, 0002, 0003, 0004)
- [ ] GCCR New Data Study
- [ ] GCCR Existing Data study
- [ ] New collaboration outside of GCCR

7. Please share your thoughts about how inclusive your collaborative network is to new researchers or how you might make your network more inclusive to new researchers?

_____

_____

_____

_____

_____

8. Any additional comments on inclusivity, equity, and/or diversity in GCCR? For example how to foster DEI, how important DEI is to you, how important DEI is generally, the value of DEI, anything!
